

Parkinson
Alberta

In Pursuit of Our Priorities

2014
ANNUAL REPORT

MESSAGE FROM THE CO-CHAIRS & CEO

In 2014, Parkinson Alberta, with the support of donors, sponsors, volunteers, participants, and clients provided almost \$2 million directly towards support services, programs, education, advocacy and research to the Parkinson's community in Alberta. With access to support and services, people, are healthier and more connected to the Alberta Parkinson's community.

Every day Parkinson Alberta is making a significant impact on the day-to-day lives of Albertans living with PD. Parkinson Alberta recognizes there are opportunities (both existing and new) that we can better leverage and ways we can be more effective and efficient. Admittedly, it is not always easy. Our statistics show access to our support services has increased 52% over the past year, while our revenue stream increased by just under 12%. Being a steward of these funds is a great responsibility. We ensure every dollar raised or donated is used effectively to maximize the best possible outcomes for you, our clients.

Parkinson Alberta believes in the value of cooperation and collaboration. We've been constantly growing and learning through our involvement with other groups like the Movement Disorders Programs, the National Parkinson Foundation, the various United Way organizations and many others.

We are nearing the end of our three-year Strategic Plan; and as such have begun developing groundwork for the future. The Board of Directors is very pleased with the progress that has been and continues to be made.

We build and plan for both today and tomorrow. We embark on new partnerships, like the one we began with the Scruggs family and Flexxaire, and are proud to welcome them to our team. Their three-year corporate sponsor commitment to Parkinson Step 'n Stride was a first for us and helped raise the profile of our largest event across the province.

Through events like the Oilympics and the annual Shoot for Parkinson's we saw an astonishing 147% increase in the revenues generated by third party events. It truly speaks to the power people have when they work together for a common goal.

Our supporters, people with PD, their families and others, purchase memberships, sign up as Walkers or Runners at the Step 'n Stride, make donations, participate in programs and attend Hope Conferences.

They volunteer countless hours to raising funds and awareness at tulip sales, golf tournaments, speaking engagements and of course, the Step 'n Stride.

They volunteer their time to make certain that there is a plan in place and the tools available to carry out Parkinson Alberta's mission and mandate.

Finally, 2014 was for Parkinson Alberta a year about growth and providing programming to those with PD and their families. Every day they have the challenge of living with PD, and every day they step up, and keep moving forward. They are advocating for themselves and they are making a difference.

Unfortunately, over the past year, we lost many who belonged to our Parkinson Alberta "family". Mr. Gordon Buchanan was one of the individuals who passed away in 2014. Through the Buchanan Centre for Parkinson's Gordon (and Diane's) legacy will live on in the hearts and minds of people living with Parkinson's in our province.

As we wrap up 2014 we want to take one last opportunity to thank all the extraordinary people, who, in big and small ways, make a difference in the lives of Albertans living with Parkinson disease. Together we are building a stronger, more vibrant and passionate Parkinson's community.

CLIENT SERVICES

Our clients have always been our number one priority. Ensuring Albertans have access to the specialized support services, programs and education they need to live better with Parkinson disease is paramount.

Direct Support and Services

Our core services have always and will always be free for all who choose to access them. Parkinson Alberta's core services include individual and family supportive counselling, support groups, learning resources, referrals, peer program, in-services and community awareness programs. We offer information about the symptoms of Parkinson disease (PD), treatments, side effects, management strategies, research, community resources and navigating the health care system to individuals and health professionals.

We offer support groups across the province for both people with PD and care partners. In 2014 Parkinson Alberta (PA) added support groups in Airdrie, Camrose and Taber, as well as new Young Onset and Care Partner groups in Edmonton. These additions brought the number of support groups offered across the province to 34 in 23 communities!

Access to Client Services through phone calls, emails, home visits, care facility and office visits increased 52%, with over 9500 connections being made. Add to that the additional 3134 non-support connections (these are typically programming and educational connections) and that is over 12,700 instances of people accessing Parkinson Alberta's offerings. The number of new visitors to our website increased 10% and our followers on Facebook (Parkinson Alberta) – up 38% to 542 - and Twitter (@ParkinsonAB) – up 109% to 430 - have seen steady increases throughout the year.

Reaching out to all Albertans living with and affected by Parkinson disease is something Parkinson Alberta prides

itself on. In a province as large as Alberta, oftentimes that means providing alternative means of connecting which we do via our toll-free PD Helpline and our online Ask the Experts. Sometimes the connection is more direct. Such was the case in 2014 when, as a result of a very successful 2013 Step'n Stride in that region, Parkinson Alberta was able to hire a part-time Client Services Coordinator for the Lloydminster Region.

Education and Programming

Education, Information and In-Services continue to be expanded on and offered throughout the province. 1806 people attended 73 in-services and education sessions; and an additional five Parkinson disease resource sheets were added to our collection. The 6th Annual Hope Conference for Parkinson's was held in Edmonton in May. Attendees heard from speakers Dr. Lisa Shulman, Dr. Richard Camicioli and Master Corporal Paul Franklin. Breakout sessions included topics on sleep, hope in PD, deep brain stimulation, exercise, voice and speech therapy, and care partner concerns.

Programming was a focal point in many of our regions in 2014. Divided into four categories - PD & the Arts, PD & Education, PD & Movement, and PD & Social – PA offered a myriad of programming across the province including - but not limited to: Thinking Memory and Concentration, PD & Yoga, PD & Singing, Mall Walking, Steady & Go! Balance and Mobility, and social opportunities. Client Services Coordinators work with their clientele on an ongoing basis to ensure programs of interest take place in their specific region.

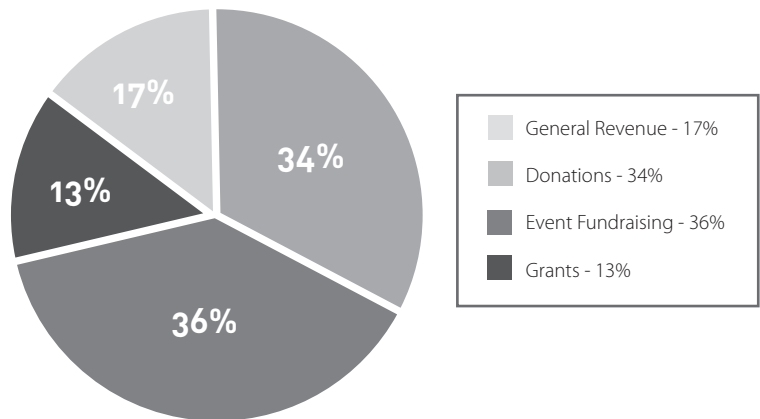

FUND DEVELOPMENT

Parkinson Alberta raises money to fund our commitment to a better today and tomorrow for people with Parkinson disease in Alberta. Funds raised ensure Parkinson Alberta can offer the high quality, specialized support services, programming and educational opportunities people living with and affected by Parkinson disease need; as well as providing critical funding for research.

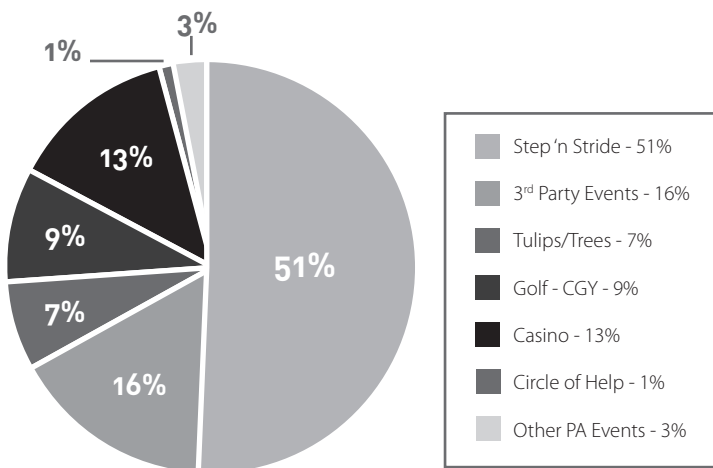

The money we raise is designated into four distinct categories: donations, events, grants, and general revenue.

While we did see a slight drop in grant and donation revenues; our unrestricted revenues for 2014 were \$1,527,222; up 11.8% from 2013 largely from a significant increase in fundraising revenues.

2014 Revenues

Events Revenue Breakdown

2014 was a very good year for our fundraising efforts! Our Step 'n Stride welcomed provincial sponsor Flexxair (to a 3-year commitment) and your efforts helped revenues increase by 28%.

The greatest increase however was via our third party events. Accounting for 16% of our fundraising revenues our third party events saw an incredible 147% increase! Third party events play an instrumental role in our annual fundraising efforts. Just what is a third party event? These are fundraising initiatives that are hosted by individuals,

community groups and businesses who then donate the proceeds to Parkinson Alberta. Some of our 2014 third party events include the Oilympics Hockey Tournament, golf tournaments, runs and even a jeans day. The sky is the limit!

With the provincial economy on unsteady ground, government and grant contributions will likely decrease. This means we will have to be more diligent and creative in our fundraising efforts. With your help we are confident that we will be successful!

RESEARCH

Research for Parkinson disease has been undervalued; and currently there are limited funds that support research for Parkinson disease and other movement disorders. Parkinson Alberta believes there is HOPE for today and tomorrow through research in Parkinson disease and is proud to support research wherever it happens, but especially here in Alberta.

The 2014 **Champions of Hope** Campaign and general research dollars saw an increase in contributions. In a November 25, 2014 media release, Parkinson Alberta pledged to match funds raised via donations to research and our Champions of Hope Campaign to further medical research and innovation on the Parkinson disease front. Parkinson's initiatives taking place at the University of Alberta, University of Calgary, and University of Lethbridge will be supported utilizing these funds in 2015. Parkinson Alberta is proud to provide researchers with resources to allocate time, energy and expertise to Parkinson disease, as well as providing excellent training opportunities for students and junior researchers, thereby creating a new generation of Parkinson's researchers.

Also in November of 2014, as a part of Parkinson Alberta's commitment to research, the **Research in Alberta Series** was launched in our Fall 2014 Parkinson Pulse Magazine. The series is intended to not only showcase Alberta research and researchers, but to promote the diversity and value of research that is taking place on the Parkinson disease front right here in Alberta.

DONORS

Through the generosity and dedication of our donors, Parkinson Alberta is able to sustain our support services and programs, as well as make valuable contributions to research. We are pleased to recognize the following donors who have made a financial commitment of \$1,000 or more in 2014. On behalf of every Albertan affected by Parkinson disease, we wholeheartedly thank those who support our efforts to ensure that no Albertan has to face Parkinson disease alone.

VOLUNTEERS

Parkinson Alberta (PA) is grateful for the dedication and commitment of all of our volunteers, without whom our organization could not succeed. Their gifts of time and talent ensure people with Parkinson disease live better today and tomorrow.

Every year Parkinson Alberta presents a Volunteer Award to an individual in each of our seven regions for outstanding service and commitment to Parkinson Alberta. The 2014 recipients are:

Dan Hein – Medicine Hat

Some individuals stand out for their great qualities and Dan is one of those people. He is well known for his compassion, integrity, work ethic, positive attitude, leadership, diligence and community spiritedness. During his time with PA, he has played and continues to play an important role in organizing, planning and raising money and sponsorships for the Flexxaire Parkinson Step 'n Stride. Dan also sits on the PA Medicine Hat Advisory Committee and has for the past two years, gaining many accolades for the organization.

For as long as he has been connected with the PA Medicine Hat Office, he has shown time and again that he is a positive, motivated leader with amazing potential.

Iris Rockarts – Grande Prairie

Iris has been a part of Parkinson Alberta for many years. She attends and is integral in organizing the monthly support group meetings. Iris diligently calls every support group member and PD & Singing Program participant to remind them of upcoming groups and programs. She is a lovely lady, who will turn 91 this year, and her help has been invaluable to the PA Grande Prairie Office.

VOLUNTEERS

Trish Clark – Edmonton

Trish has been a PA Board Member since Spring of 2013. She also serves as a member of the provincial Client Advisory Committee and was instrumental in starting a new support group in Camrose. Trish has been a blessing to the PA Edmonton Office; always willing to come in and help be it to answer phones, help with data entry or call people to remind them of groups or programs. Trish also contributes her excellent writing and public speaking skills -- whether it is submitting a story for the magazine, telling her Parkinson's story to a group, or doing a TV interview. We are truly grateful for all of her assistance and support.

Natalie de Bruin – Lethbridge

Natalie has consistently stepped forward to offer assistance as walk day registrar at the annual Step 'n Stride. Natalie always provides the Lethbridge Office and our clients the latest updates on research that is being conducted at the University of Lethbridge. It has truly been a pleasure to witness Natalie rise academically as well, and there were none prouder than our clients when she received her PhD designation. Thank you Natalie for never shying away from helping us to raise awareness about Parkinson disease!

Mary Devolin – Red Deer

Mary cared for her husband Ron, who had PD, for many years before his passing in 2014. She calls all our clients every month for the Olds support groups & other events. Every year Mary and her family participate in and raise funds for Step 'n Stride and was instrumental in obtaining a donation from a local oil company several years ago. Mary continues to assist with our Olds group and as a Peer Mentor helps us work with care partners.

When we were developing our PD resource handout for the Olds area Mary visited several surrounding communities and documented all of the resources.

Drayson Jones – Lloydminster

Drayson Jones has been involved in the Lloydminster community for quite a few years. From 4H leader to Board Member at the PV Seed Plant to Rural Crime Watch member, Drayson has a long history of giving back to the community. In Spring of 2011, his wife Pat (they were married in 1970) was diagnosed with Parkinson disease. Drayson has been very active in raising awareness for Parkinson's in the community -- from speaking at the support group to being interviewed for TV. Drayson (and family) have also been heavily involved in Step 'n Stride since its inception in 2013. He also served as a Board Member on the original Lloydminster Parkinson's Support Society. It is with great respect that Parkinson Alberta presents Drayson Jones with the Lloydminster Region's Volunteer Award!

Myrna Taylor – Calgary

Myrna Taylor has been a dedicated Parkinson Alberta supporter for many years. She is always stepping up to make the calls and send the emails out to others reminding them of support groups and programs. She is always happy to fill for others when they are unable and is consistently helpful with the little things that need attention. Myrna is a frequent Step 'n Stride participant and is always going out of her way to do special things, like bring home-baked treats to the different groups and programs she attends. Her calm, quiet, and supportive demeanor is appreciated by many, especially the Calgary Client Services staff! We are happy to show our appreciation to her by presenting Myrna with this award.

IN MEMORIAM

Parkinson Alberta offers its deepest sympathies to the families and friends who have lost loved ones this past year. We extend our sincerest thanks and appreciation to those who have made donations in their memory.

TREASURER'S REPORT

For the Year Ended December 31, 2014

Parkinson Alberta is a diverse community that extends province wide and encompasses many dedicated and talented volunteers and staff who work in constant collaboration with one another. At the core of this community, are the individuals who suffer from this degenerative disease and the care partners who attend to them.

Over time, although the members of the community change, the mission and vision of Parkinson Alberta remains steadfast.

Parkinson Alberta seeks to ease the burden of Albertans living with Parkinson disease through advocacy, education, and client services; and seeks to ensure a brighter future through contributions to research. Parkinson Alberta continues to evolve to advocate this mission.

With the collaboration of many clients, donors, sponsors, volunteers, and staff, 2014 proved to be an incredible year for Parkinson Alberta in terms of its fundraising initiatives. Overall, "event fundraising" increased 31% from 2013 to 2014. A major contributing factor to this positive change is attributed to the increased participation in the Flexxair Parkinson Step 'n Stride. With a three-year corporate sponsorship commitment, we were excited to welcome Flexxair and the Scruggs' family as the named sponsor for this key event. The 2014 Step 'n Stride raised almost \$80,000 more than the previous year.

Recognition also goes to the United Way of Calgary and Area, the United Way Northwest, and the United Way of South Eastern Alberta. These regions continue to fund their support of Parkinson Alberta's mission and vision.

These and other fundraising success stories have contributed positively to our Restricted Investment Assets which are reported at a value of \$1,233,716 at the 2014 fiscal year end. Our appreciation goes to our investment fund managers who continue to manage

our investment portfolio well. Cash, government bonds, short-term money market funds, and short-term mortgage funds comprise the portfolio.

In 2013, Parkinson Alberta worked in collaboration with the Gordon & Diane Buchanan Foundation to raise funds for the building of the Buchanan Centre for Parkinson's in Edmonton. The tremendous momentum of Parkinson's awareness this project created reached well into the fiscal year of 2014.

We are grateful and thankful for commitments, monetary or other, from all individuals and corporations and for the energy and incentive to assist in moving the community of Parkinson Alberta forward. Together, we are creating better days for Albertans living with Parkinson's today and laying the foundation for a brighter future, a world without Parkinson disease.

It has been a privilege to have served as Assistant Treasurer and then Treasurer for the past three years in this diverse community known as Parkinson Alberta.

Respectively submitted,

Sharon Sprinkhuysen, CGA
Treasurer

INDEPENDENT AUDITOR'S REPORT

To the Members of Parkinson Alberta Society

I have audited the accompanying financial statements of Parkinson Alberta Society, which comprise the statement of financial position as at December 31, 2014 and the statements of revenues and expenditures, changes in net assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian Accounting Standards for Not-for-Profit Organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Independent Auditor's Report to the Members of Parkinson Alberta Society *(continued)*

Basis for Qualified Opinion

In common with many not-for-profit organizations, Parkinson Alberta Society derives revenue from fundraising activities the completeness of which is not susceptible to satisfactory audit verification. Accordingly, verification of these revenues was limited to the amounts recorded in the records of Parkinson Alberta Society. Therefore, I was not able to determine whether any adjustments might be necessary to fundraising revenue, excess of revenues over expenses, and cash flows from operations for the year ended December 31, 2014, current assets and net assets as at January 1, 2014 and December 31, 2014

Qualified Opinion

In my opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements present fairly, in all material respects, the financial position of Parkinson Alberta Society as at December 31, 2014 and the results of its operations and its cash flows for the year then ended in accordance with Canadian Accounting Standards for Not-for-Profit Organizations.

Mission Statement: Parkinson Alberta is the voice of Albertans and their families living with Parkinson disease. Our purpose is to ease the burden through advocacy, education, client services, and find a cure through research.
